

**DEALERSHIP RENEWAL ANNOUNCEMENT:****G&Z EXTENDS THE DEALERSHIP OF GURAN MAKINA TICARET (GMT)**

Ripon, California U.S.A. September 3, 2019 – G&Z extends the long-term relationship with its proved partner in Turkey. Open communication, trust, and strong business have been the foundation of a 20-year business relationship between G&Z and Guran Makina Ticaret. GMT as the exclusive dealer is engaged in the resale of the concrete paving equipment, bucket wheel trenchers, and canal equipment, sales of spare parts and service, training of equipment operators, aftermarket and application support in Turkey.

G&Z's productive and dependable concrete slipform paving equipment makes it the most trusted and respected name in the industry. For over 75 years G&Z has been known for its innovations and pioneering spirit.

GMT has been in a construction equipment industry since 1960 and possesses a valuable knowledge about Turkish concrete construction and paving industry, road network, infrastructure as well as the region's specific peculiarities and growth potential.

Harun Guran, the CEO of Guran Makina Ticaret is very optimistic about the future of the country's concrete paving industry: "Concrete road construction is the most important subsector in Turkey's construction industry which has been challenged by the recent global economic processes. Currently, the country and the region are recovering, and the concrete paving industry is getting more and more attention both from the private sector and the government. G&Z has always prioritized growing markets and the modernization plans of Turkey's road infrastructure is opening a big horizon for G&Z in Turkey", added Harun Guran.

Looking to the future G&Z and GMT are excited about the opportunities the Turkish paving and trenching industries present.
